Scope of duties

- We offer an exciting position in the field of cancer immunotherapy in a highly clinically relevant research area.
- The focus of our Immunopharmacology group (head: Prof. Dr. S. Kobold and Prof. Dr. S. Endres) is the development of new anti-tumoral immunotherapies.
- The successful candidate will be responsible for self-employed execution of experiments, the processing of patient samples and laboratory organization that includes ordering of reagents, breeding of mouse lines and the methodically teaching of doctoral students.
- The lab uses a wide variety of molecular biological approaches and methods: cell culture, real time PCR, ELISA and FACS as well as mice experiments (genotyping, tumor models, extracting bone marrow and spleen).
- A detailed training will be provided in all areas.

Our requirements

- We are looking for highly motivated applicants (Degree as a technical assistant) with precise working method and very good organization skills who like to work in an international team of dynamic people.
- The suitable candidate should have good skills in molecular biology, immunology and cell culture.
- The willingness to work with mice is a prerequisite.
- Fluency in English is mandatory.

Our offer

- We offer a technical assistant position for two years with the possibility of extension.
- Part-time employment is generally possible.
- Remuneration is based on the Collective Agreement for the Public Sector of the Länder (TV-L) including all allowances customary in the public sector.

Offers and services of the employer

-  Further education and training
-  Company pension scheme
-  Childcare services
-  Mobile work (if suitable)
-  Job ticket
-  Discounts
-  Staff accommodation (if available)
